DETAILED ACTION

1. This Office Action is made in response to applicant's amendment filed on 11/27/2007. Claims 1 and 6-13 are currently pending in the application. An action follows below:

Allowable Subject Matter

2. Claims 1 and 6-13 are allowed.

The following is an examiner's statement of reasons for allowance:

The present invention is directed to a transflective liquid crystal display device providing different offset voltages to the common electrode based on the mode of operation of the display device. Independent claim 1 identifies the uniquely distinct features applying the shifted voltage waveform to the common electrode of the display for each display mode. The closest prior art, Noguchi (USPN: 7084849) discloses applying the shifted voltage waveforms to the source electrode line while keeping the common electrode line at a single voltage level and fails to anticipate or render the above underlined limitations obvious.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Steven E. Holton whose telephone number is (571) 272-7903. The examiner can normally be reached on M-F 8:30-5.
